FEATURES

FEATURE TRACKER

The Feature Tracker adds an extra layer of excitement to each spin in the game. During gameplay, a color is randomly selected, and if a Wild symbol of the corresponding color lands, one of three thrilling features is activated, accompanied by a respin. During Free Spins, all activated features remain active until the end, enhancing the potential for big wins. Additionally, there's a chance that all three colors are selected simultaneously, triggering a respin with any landing Wild symbol.

ORANGE WILD - STICKY WILDS FEATURE

When the orange color is selected, landing an Orange Wild triggers the Sticky Wilds feature, initiating respins with sticky Wilds that persist throughout subsequent spins, boosting winning potential.

PURPLE WILD - EXPANDING WILDS FEATURE

Selecting the purple color activates the Expanding Wilds feature. Landing a Purple Wild expands it to cover an entire reel, triggering respins and creating more opportunities for significant wins.

RED WILD - MULTIPLIER WILDS FEATURE

With the red color selected, landing a Red Wild triggers the Multiplier Wilds feature, adding random multipliers to the Global Multiplier for increased winnings across spins.

Possible values for the Red Wild: 2x, 3x, 4x, 5x, 10x, 15x, 25x, 50x, 100x

Note: All color Wilds act as regular Wild symbols, replacing any paying symbol when they do not activate a feature.
