FEATURES

SYMBOL UPGRADER

It only appears on reels 2, 3, 4, 5, and 6. When activated, it will select one symbol adjacent to it and upgrade all instances of that symbol.

The Symbol Upgrader activates once the grid has settled and Symbol Converters have been executed.

Upgrade on the grid as follows:

- *Low-Paying Symbol: Upgraded to a random themed symbol.*
- *Themed Symbol: Upgraded to next higher paying themed symbol.*
- *Highest Paying Themed Symbol: Upgraded to regular Wild symbols.*
- *Regular Wild Symbol: Symbol Upgrader turns to a regular Wild symbol.*
- *Sticky Walking Wild: The Symbol Upgrader transforms into a Sticky Walking Wild with a starting multiplier of 1x. Note: The original Sticky Walking Wild retains its multiplier.*
- *The Symbol Upgrader itself changes into the same symbol it upgraded to.*

STICKY WALKING WILDS

The starting multiplier is always **1x**. After participating in a win, the multiplier increases by **+1x**. The multiplier is applied to all wins that the symbol is part of. When multiple Sticky Walking Wild symbols are part of one cluster, their multipliers are added together. After participating in a win, the symbol moves to a new location adjacent to its current position.

- *The symbol is removed with a new spin in the base game but remains on the grid for extra cascades.*
- *The maximum multiplier value is 10x. Once this is reached, the multiplier will not increase further, but the Wild will continue to move to a new location after each win.*
- *When Free Spins are triggered, Sticky Walking Wilds will not remain for the feature.*

SYMBOL CONVERTER

When activated, it reveals a random paying symbol and **adds 1-8 additional** symbols of the same type next to it on the grid. The Symbol Converter then transforms into the revealed symbol. It always activates before the Symbol Upgrader if both are present on the grid at the same time.

The Symbol Converter activates once the grid has settled.
