FEATURES

WILD SYMBOL

Replaces any paying symbol.
After a win, all Wild symbols stay on the grid and jump to a new random location.
After participating in a win, it will acquire one of the following multipliers: **1x, 2x, 3x, 5x, or 10x**.
Each time it is part of a win, it will add the initial multiplier to its value.

When the grid is settled, all multipliers from Wild symbols will be added to the Win multiplier.

SYMBOL REMOVAL

Each Wild symbol that lands will increase the counter, and when the counter reaches 3, the lowest available paying symbol is removed from the grid.
The counter resets with each new spin during the base game.
Symbols are removed when the grid is settled.

TOTAL WIN

All base wins from different cascades during a single spin are added to the Total Win for that spin. If there are multipliers from Wild symbols, they are applied to the Total Win after all cascades are complete and the grid has settled.

WIN MULTIPLIER

Applied to the Total win.
Resets with each new spin.
