GAME DESCRIPTION

Get Ready for a Tasty Battle in **Culinary Clash!**

Step into the kitchen for a fun battle between healthy food and junk food! In this **7-reel, 7-row cascading cluster pay game**, connect 5 or more symbols to win. After a win, symbols disappear, and new ones drop in, giving you more chances to win.

Look out for **Tomato symbols** that turn low-paying symbols into Wild symbols. High-paying symbols with multipliers that grow with every win stay sticky during the **Free Spins!**

With a chance to **win up to 10,000x** your bet, Culinary Clash offers a tasty adventure full of rewards! The max win can be achieved in all game modes.

FEATURES

SYMBOLS WITH MULTIPLIERS

After a cluster win, a matching symbol with a multiplier will be added in one of the empty cells left by the removed winning symbols. Multiplier value is equal to the amount of symbols that participated in the win. Only high paying symbols generate symbols with multipliers. When the symbol with Multiplier participates in another win, the multiplier from it is applied to that win. If one or more Multiplier symbols are part of a winning cluster, only one new Multiplier symbol appears. Its value equals the total of all multipliers in the win, plus one for each symbol without a multiplier that was also part of the win.

The symbols with multipliers are persistent for the extra cascades, but will be removed with the new spin. If a Wild symbol is part of the winning cluster, it is counted as one regular symbol adding +1x to the new symbol with Multiplier value. Symbols with multipliers can also drop during the spin.

Possible values in case the symbol drops:

5x, 10x, 15x, 20x, 25x

TOMATO

When the Tomato symbol lands, it turns all randomly selected low-paying symbols of one type on the grid into regular Wild symbols. Stays as a regular Wild symbol. When two or more Tomato symbols land, both of them will turn different low-paying symbols to Wild symbols.

WILD SYMBOL

Wild symbols replace any paying symbol.
