# FEATURES

**PURPLE WILD**

When the **Purple Wild** symbol lands it will **add 1-3 regular Wild symbols** to random positions in the same row. After adding Wild symbols, it will turn to a Wild symbol itself.

**RED WILD**

When the **Red Wild** symbol lands it **adds 3-10 random multipliers** on random symbols.

Possible additive values:

**2x, 3x, 4x, 5x, 10x, 25x, 50x, 100x**

**WILD SYMBOL**

Wild symbols replace any paying symbol.

*When several multipliers land on the same symbol, they are added up.*

*When a symbol with a multiplier is part of a win, the multiplier will be applied to the win. In case several symbols in the same win have multipliers, those will be added up and then applied to the win.*

*Multipliers will be reset with each new spin.*

*When the Red Wild and Purple Wild symbol are on the grid at the same time, Purple Wild symbol acts first and after that Red Wild symbol. After adding multipliers, it will turn to a Wild symbol itself.*
