FEATURES

GLOBAL MULTIPLIER LADDER

A multiplier ladder is located next to the reels.

Values on the multiplier ladder: **1x, 2x, 3x, 4x, 5x, 6x, 7x, 8x, 9x, 10x, 12x, 15x, 20x, 25x, 50x, 100x.**

The default value is **1x**.

A booster can increase the Multiplier Ladder by 1 step, or occasionally by several steps at a time.

When multiple steps are added, the ladder moves up randomly, up to the maximum value.

Current multiplier value during the win calculation is applied to all wins.

The Multiplier Ladder is progressive during extra cascades but resets with each new spin.

During free spins:

The starting value of the Multiplier Ladder is determined by the selection bonus result.

During Free Spins, the Multiplier Ladder is progressive.

EXPANDING REELS

Default grid size is 3 rows.

A booster can increase the number of rows by 1.

When the grid size is increased, new symbols drop to fill the grid immediately.

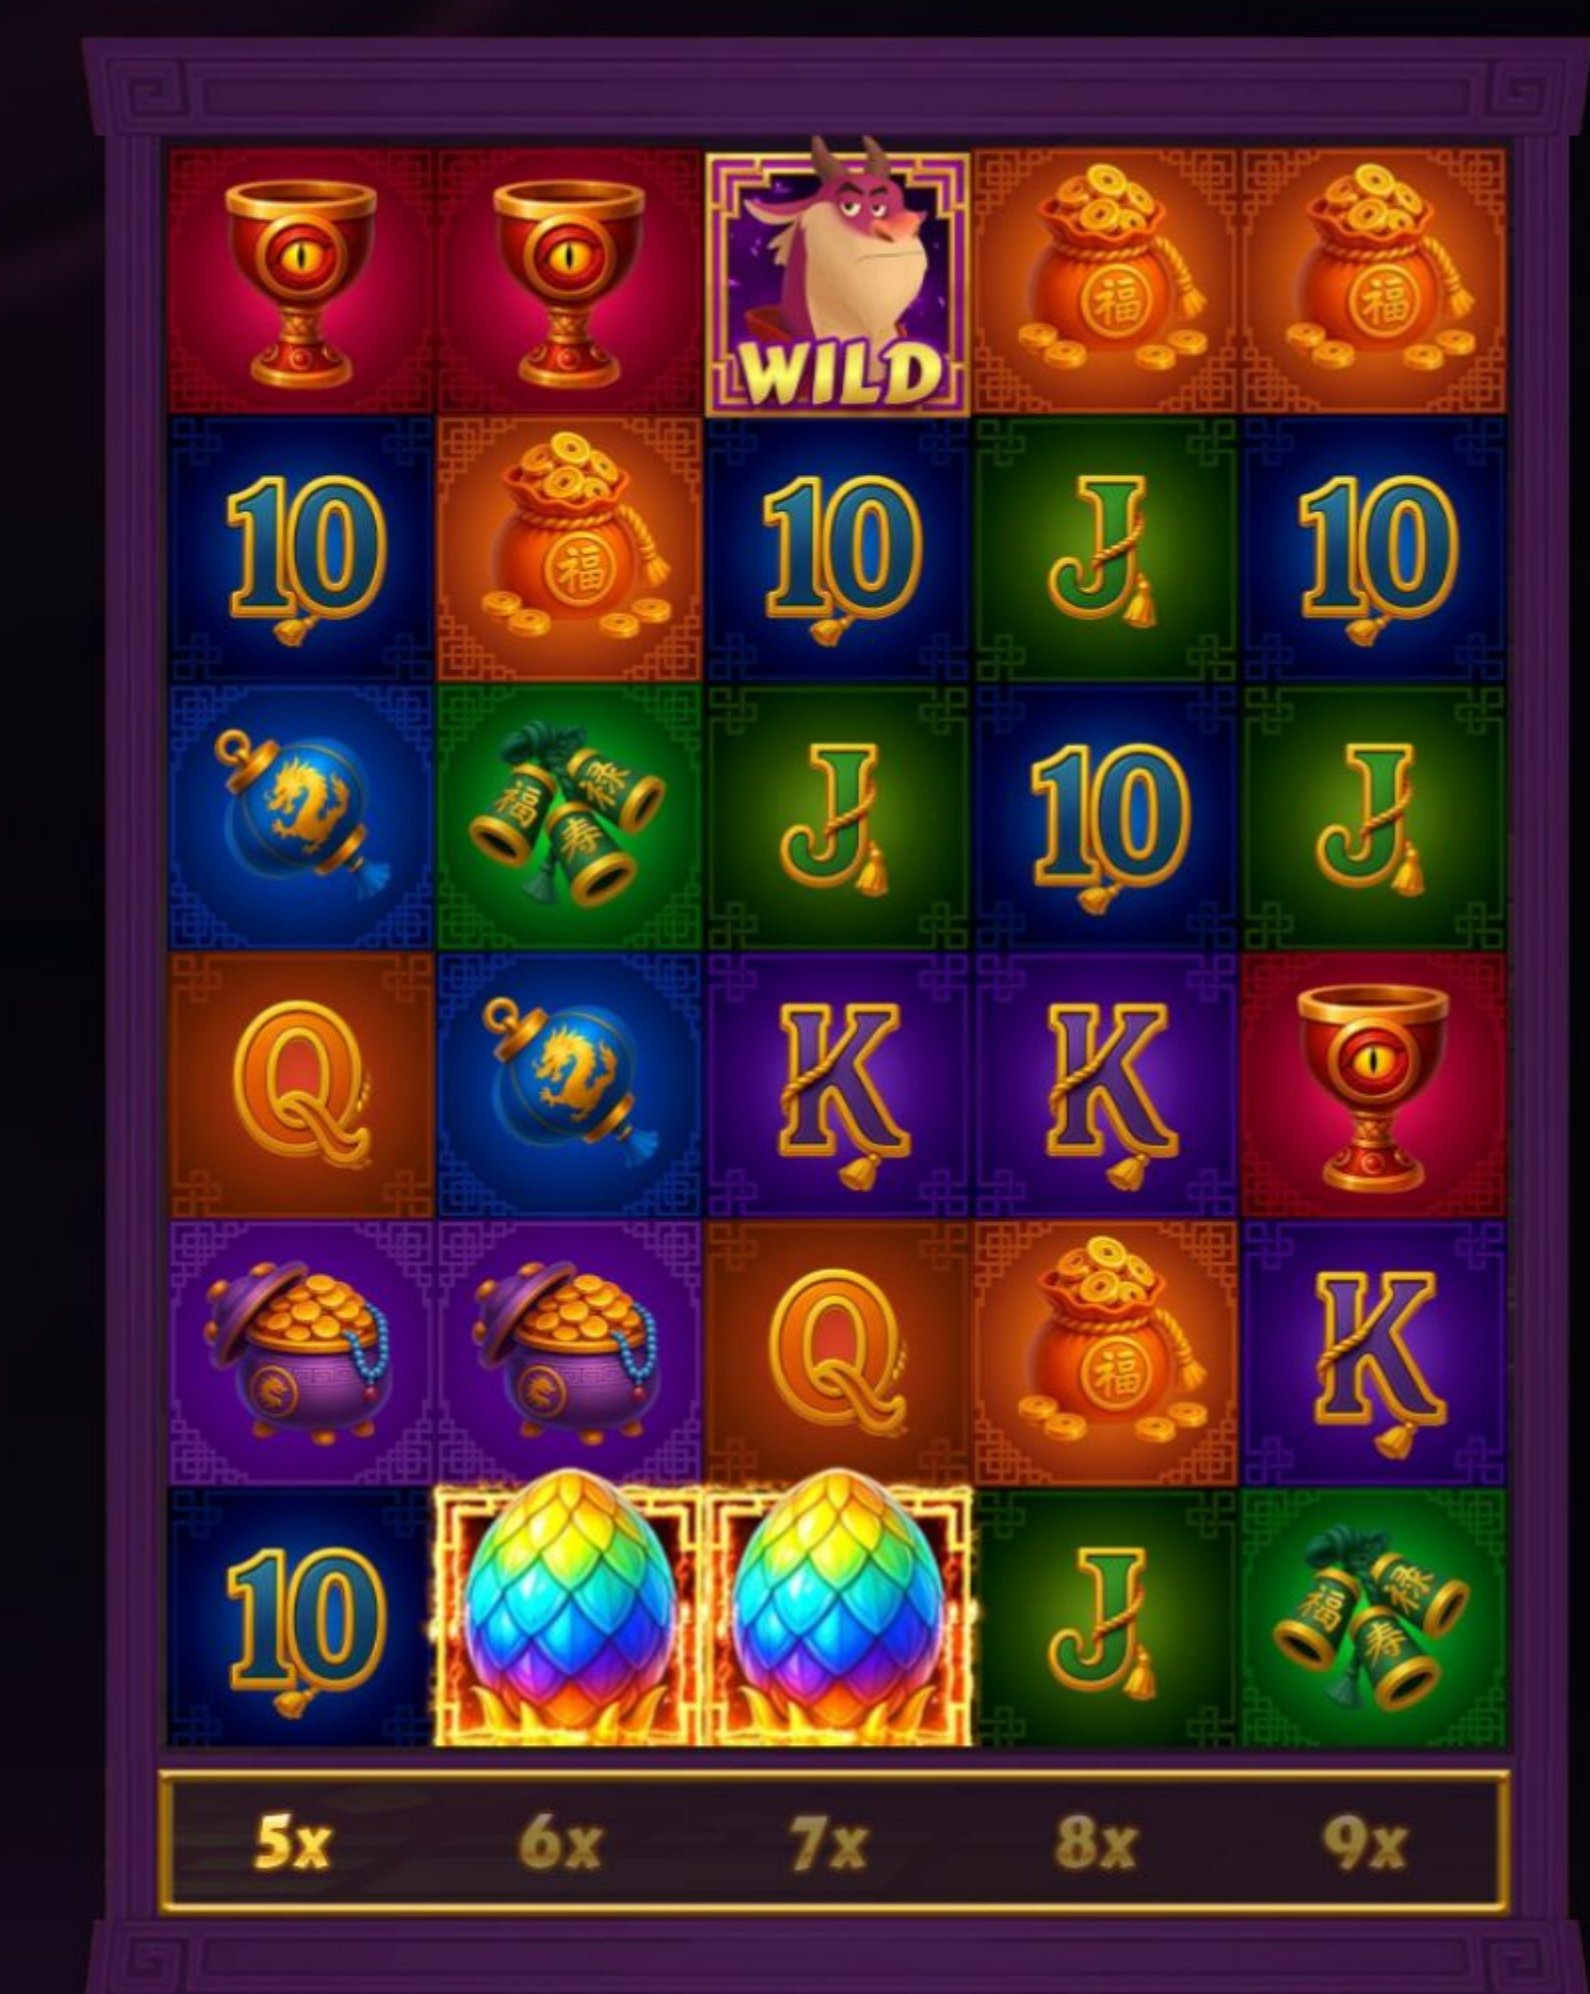

The maximum number of rows the grid can reach is 6.

Grid size is progressive during extra cascades but resets to 3 rows with each new spin.

During free spins:

The grid starting size depends on the bonus triggered.

During Free Spins, the grid size is progressive, meaning if it increases, it will stay until the end of the feature.

FEATURES(continued)

BOOSTERS

After each win, **one booster** is awarded.

The booster can either **increase the Multiplier Ladder** or **expand the reels**.

When one booster reaches its maximum level, another booster is selected.

When all boosters are at maximum level, no more boosters are awarded.

During free spins:

The booster can either add a Sticky Mystery symbol, increase the Multiplier Ladder, or expand the reels.

WILD SYMBOL

Wild symbol replaces any paying symbol.

Wild symbols can drop during both the base game and Free Spins.

STICKY MYSTERY SYMBOLS

Sticky Mystery symbols are available only during Free Spins and stay on the grid until the end of the feature.

Mystery Symbols **can only** appear on reels **2, 3, and 4**.

A booster can add only **one Sticky Mystery Symbol** at a time.

When a booster with the Sticky Mystery symbol is awarded, it will drop on a random reel (2, 3, or 4) during the extra cascade.

If one of the reels is filled with Sticky Mystery symbols, it will drop on one of the other available reels.

All Mystery symbols reveal the **same type of random paying symbol**.

Mystery symbols can also reveal **one or more Wild symbols**.

Mystery symbols reveal a new symbol during each extra cascade, together with the new cascade symbols.
