

The background illustration depicts a whimsical underground gem mine. A central character, a blue-skinned miner with a large white beard and round glasses, wears an orange hard hat with a glowing yellow headlamp. He holds a pickaxe in his right hand and a large, glowing orange gemstone in his left. Three blue, ghost-like creatures float around him, each holding a small gemstone (purple, red, and orange respectively). The mine is dimly lit by two hanging lanterns and features various colorful gemstones (purple, blue, orange) scattered on the ground and in a wooden cart on the right. The title 'GEM GHOSTS' is prominently displayed on a wooden sign in the center.

# GAME DESCRIPTION

## Enter the Haunted Mine in **Gem Ghosts!**

Join a ghostly treasure hunter deep in a haunted mine in Gem Ghosts, a fast-paced **6x6 cluster game** where you need to connect 5 or more matching symbols to win. With a max win of up to **12,000x your bet**, every spin brings you closer to hidden treasure!

In the base game, land 3 or more Wilds to trigger the **Respin Feature**, where only Wilds stay on the grid and their multipliers double with each respin!

Trigger the **Free Spin Feature** to start with a **Collect phase**, gathering Wilds before one powerful Free Spin plays out. After that, you may randomly trigger another Free Spin including Collect phase, again and again!

With **Multiplier Wilds**, fast spins, and potential retriggers, Gem Ghosts is a thrilling hunt for haunted treasure!

# FEATURES

## WILD SYMBOLS

Possible multipliers: **2x, 3x, 4x, 5x, 10x, 25x, 50x, 100x.**

The multiplier is applied to all wins that the symbol is part of. When multiple Wild symbols are part of the same cluster, their multipliers are added together and then applied to the win.

Wild symbols replace any paying symbol.

## RESPINS

When all wins and cascades from a regular spin are complete, and at least three Wild symbols remain on the grid, a respin is triggered. During the respin, all Wild symbols and Scatter symbols stay on the grid while other symbols are removed and replaced with new ones.

Multiplier values on the Wild symbols double with each respin. Wild symbols that are part of a win are cleared from the grid along with the winning symbols.

Another respin is awarded if the grid holds at least three Wild symbols when all wins and cascades from the respin are complete. If fewer than three Wild symbols remain at the end of the respin, no new respin is awarded.

If there are 3 or more Scatter symbols on the grid at the end of the respins, the Free Spin feature is awarded.

# FEATURES(continued)

## HAUNTED HARVEST

3 or 4 Scatter symbols trigger the feature with one Free Spin. The Free Spin feature consists of a Collect Phase followed by a single Free Spin.

### Collect phase

Scatter symbols from the base game stay on the grid at the beginning of the Collect Phase and transform into Wild symbols, each with a random multiplier.

Possible multipliers: **2x, 3x, 4x, 5x, 10x, 25x, 50x, 100x.**

All other cells spin for a chance to land either a Wild symbol with a random multiplier or a blank symbol. If no new Wild symbols land during three consecutive spins, the Collect Phase ends.

### Final free spin

Once the Collect Phase is complete, all collected Wild symbols stay in place and one Free Spin is awarded.

When there are no more wins on the grid, a mystery draw may award one more Free Spin.

If an extra Free Spin is drawn, the game returns to the Collect Phase, keeping all Wild symbols from the end of the first spin on the grid.

Multiplier values on the kept Wild symbols will double before the second Free Spin starts.

If no extra spin is drawn, the feature ends.

The Mystery Draw can award an unlimited number of additional Free Spins.
