GAME DESCRIPTION

Step aside, engines—it's pedal power time in **Paper Biker!**

Meet a former biker who's traded in his iron beast for a humble bicycle. He might've lost his license, but not his attitude! Now he's cruising the suburbs and delivering newspapers with the same grit he once brought to the open road.

Paper Biker is a fast-paced **6x6 cascading cluster game** full of **exciting multipliers and dynamic features**. Connect 5 or more matching symbols to create wins and activate powerful Cell Multipliers that can increase with each trigger.

Watch for **Newspaper roll symbols** as they not only unlock multipliers but can also add Wild symbols or boost multipliers to shake things up on the grid.

During Free Spins, activated multipliers remain on the grid for the entire feature, offering the chance to build bigger combinations over time. The game includes a top win of up to **15,000x your bet**.

This isn't your typical newspaper route, so hop on and enjoy the ride in Paper Biker!

FEATURES

NEWSPAPER ROLL SYMBOL

When the Newspaper roll symbol lands, it activates **3 to 10 random cells**, assigning each **a random multiplier**.

Colors of the newspaper roll determines the range of possible multipliers:

White:
2x, 3x, 4x, 5x

Orange:
10x, 12x, 15x, 20x

Red:
25x, 50x, 75x, 100x

Each time a cell with a multiplier is hit again, the multiplier value doubles. When a cell with a regular Wild symbol is hit, it is activated and assigned a multiplier. In addition, 2 to 6 extra Wild symbols are added to random cells on the grid.

Extra Wild symbols will not be added on top of Scatter symbols, Newspaper roll symbols, or other Wild symbols. If there are no valid cells available, fewer or no Wild symbols will be placed.

Note: Extra Wild symbols are added only once per cascade, even if the same Wild symbol is hit multiple times.

When the Helmet symbol is hit, the cell is activated and assigned a multiplier. In addition, one random low-paying symbol type is chosen, and all matching symbols on the grid are transformed into Helmet symbols.

Each time a cell with a multiplier is hit again, the multiplier value doubles. When a cell with a regular Wild symbol is hit, it is activated and assigned a multiplier. If multiple Helmet symbols are hit, each selects a different low-paying symbol type to transform into Helmet symbols.

If there aren't enough low symbols to select, no symbols are converted. Note: A single Helmet symbol can be hit multiple times, doubling its multiplier with each hit after the first, but the conversion of low symbols happens only once per cascade.

The Newspaper roll symbol itself changes into a regular Wild symbol.

CELL MULTIPLIERS

A cell multiplier is assigned when a Newspaper Roll hits a cell.

When a cell has a multiplier, it applies to any win involving the symbol in that cell.

If several cell multipliers are involved in a win, they are summed and then applied to the win.

Cell multipliers remain during cascades, but with every new spin multipliers are reset.

During Free Spins:

All revealed cell multipliers stay active and increase progressively throughout the feature.

WILD SYMBOL

Wild symbol replaces any paying symbol.
