GAME DESCRIPTION

Slash Through Spins in Belle the Blade Hunter!

Step into a high-intensity world of action and steel with Belle the Blade Hunter, a **5x4 high-volatility slot** where every spin slices through danger and delivers powerful multipliers. Belle isn't just a hunter—she's a whirlwind of wild steel and ruthless precision.

Line up wins across **20 paylines** with the help of **dynamic Wild symbols** that power up cell multipliers wherever they land. These multipliers grow in strength during Respins and Free Spins, making each round more intense than the last!

Hit at least **three Wilds** to trigger a **Respin streak** where Wilds leap across the grid, upgrading multipliers and unlocking new win potential. Land **three or more Scatters** to enter **Free Spins**, where Wilds become sticky and bouncing, jumping to new cells and building your blade-powered bonuses with every strike.

With up to **10,000x** your bet on the line and nonstop action, Belle the Blade Hunter is here to cut through the ordinary—are you sharp enough to handle her?

FEATURES

CELL MULTIPLIERS

Wild symbols increase the cell multiplier of the position they land on.

Cell multipliers apply only to Wild symbols that land in the cell and are part of a win.

Cell multipliers reset with every new spin.

During Free Spins:
Cell Multipliers increase progressively throughout the feature.

WILD SYMBOL

Each time a Wild symbol lands, it adds or increases the cell multiplier on that cell.

Possible additive values: 2x, 3x, 4x, 5x, 10x, 15x, 20x, 25x, 50x, 100x.

Possible multiplicative values: x2, x3, x4, x5, x10.

When a Wild symbol is part of a win, it applies its cell's multiplier to that win.

When multiple Wilds are in the same win, their multipliers are added together and applied to the win.

Wild symbol replaces any paying symbol.

During Free Spins:

During Free Spins, all Wild symbols that land remain persistent and move across the grid until the feature ends. With each spin, Wild symbols move to new locations and increase the cell multipliers there.
