GAME DESCRIPTION

Climb to the Top in Lemur Levels!

Join a cheeky lemur on a juicy jungle adventure in **Lemur Levels**, a colorful **7x7 cascading cluster game** packed with fruity fun and powerful **win boosters**.

Connect **5 or more** matching symbols to win, and keep the excitement rolling with cascading reels that can trigger multiple wins in a row. **Lemur Kings** bring extra energy to the game — every time they're part of a win, they activate **one of five random boosters** that can change the grid in wild ways!

Watch as the boosters **swap symbols, add Wilds, reload the grid**, or even activate big **win multipliers**. Each spin can surprise you with new combinations and growing potential!

Trigger the **Bonus feature** with **3 or 4 Scatter** symbols and climb through up to four levels of Bonus Game. Each level increases the multiplier range and boosts your chances to climb even higher!

With up to **15 000x** your bet available, **Lemur Levels** brings endless energy, fruity flair, and wild jungle fun to every spin. The max win can be achieved in all game modes.

FEATURES

LEMUR KING SYMBOL

Can land only in the base game. Replaces any paying symbol. When part of a win, it activates one random grid booster.

If multiple Lemur King symbols are part of a win, each activates a different booster.

If more than 5 Lemur King symbols are part of wins, all 5 grid boosters are activated, any additional symbols will not activate boosters.

GRID BOOSTERS

Grid boosters are applied one by one after the grid has settled.

After one booster is applied, the grid settles again before the next booster is applied.

The Multiplier booster is the only one applied immediately when it is activated.

When several boosters are activated in the same spin, they are applied in random order.

After applied, grid boosters deactivate and can be reactivated by a Lemur King symbol again.

The Multiplier booster does not deactivate. It remains active for all subsequent wins during that spin.

WILD SYMBOL

Replaces any paying symbol.

Multiplier

When triggered, a random multiplier is drawn immediately and remains active until the end of the spin. All the wins that happen after the multiplier activation will apply the win multiplier.

After activation, the multiplier is applied to all the wins until the spin ends.

Possible multipliers:

2x, 3x, 4x, 5x, 10x, 15x, 20x, 25x, 50x, 100x.

The multiplier resets with each new spin.

Wilds

When triggered, **3-8 regular Wild symbols** are added to random positions on the grid.

Wild symbols cannot be added on top of existing Wild symbols.

If there aren't enough available positions, fewer or no Wild symbols are added.

Reload

When triggered, **all symbols** except Lemur King symbols and regular Wild symbols **are removed** from the grid, and new symbols drop in.

Replace

When triggered, **5-10 random symbols** on the grid transform into the **same random paying symbol**.

Symbols cannot transform into a Wild symbol.

Existing Wild symbols are not transformed.

If there aren't enough positions available, fewer or no symbols are transformed.

Low to High

When triggered, each low paying symbol on the grid is converted into random high paying symbol.

If there are no low paying symbols on the grid, no conversion occurs.

FEATURES (continued)

JUNGLE JOURNEY

3 Scatter symbols trigger the feature starting from the first level. This Bonus game keeps the base game's mechanics and additionally uses new mechanics described below.

The feature has **up to 4 levels**, each consisting of one spin with **5 guaranteed grid boosters**.

Every level begins with the Multiplier booster. A win multiplier is drawn before the spin starts and applies to all wins during that level. After the initial spin and grid settlement, the remaining 4 boosters are applied one by one in random order, with the grid settling again after each booster.

All winning symbols are counted during Free Spins.

To advance to the next level, **60 symbols must be collected** during the current level.

If the required number of symbols is not collected during a level, the feature ends.

Multiplier Ranges by level:

Level 1: None, 2x, 3x

Level 2: 5x, 10x, 15x

Level 3: 20x, 25x, 30x

Level 4: 40x, 50x, 100x

Level 4 plays the same as the others but without symbol collection, since it is the final stage.

TREETOP TRIUMPH

4 Scatter symbols trigger the feature starting from the **first level and the second level is guaranteed**.

This Bonus game uses the same mechanic as JUNGLE JOURNEY Bonus game with below described differences.

Winning symbols are not counted during the first level, counting starts from level 2.

FREE SPINS COUNTER

Scatter symbols appear only in the base game. When it lands, the symbol increases the counter by 1 and turns into a random paying symbol.

Scatter cannot turn to a Wild symbol.

The counter is progressive during extra cascades but resets with each new spin.

If the counter reaches 3 or 4 Scatter symbols by the end of a spin, the Free Spins feature is triggered.
