GAME DESCRIPTION

Build sweet multipliers in Gobstopper Grind!

Gobstopper Grind is a **6x5** cascading scatter-pay game where you need **8 or more** matching symbols anywhere on the grid to create a win. Each winning symbol **upgrades the multiplier of its cell**, and those multipliers keep growing during the cascades of that spin.

The **Collector Symbol** absorbs the multiplier values from nearby cells and **stacks them into one spot** on the grid.

Trigger Bonus Game to make all **Cell Multipliers stay active** for the entire feature. In the **JAWBREAKER OVERLOAD**, every cell begins with a multiplier already on it.

Fast cascades. Growing multipliers. One giant Gobstopper to chase.

The max win potential in this game is **10 000** times your bet.

The max win is available in all bonus game modes.

FEATURES

CELL MULTIPLIERS

Cell Multipliers increase by 1x when a winning symbol appears in a cell.

The multiplier increases after the wins are calculated.

The Cell Multiplier is applied to any win that includes a symbol from that cell.

If a winning combination includes symbols on multiple cells with multipliers, their values are added together and then applied to the win.

The default multiplier is none. The first win will increase the multiplier of an empty cell to x1.

Cell Multipliers are progressive during cascades, but reset with each new spin.

The maximum cell multiplier is x100 000.

Note: Cell Multipliers from the triggering spin do not carry over to the bonus game.

COLLECTOR SYMBOL

Can appear as any paying symbol.

When it lands, it collects the values of Cell Multipliers from all adjacent cells and adds the values to the multiplier of the cell it landed. Each adjacent cell keeps its value in the process.

The symbol itself stays a regular paying symbol.

If multiple Collector symbols land, they activate one by one, from left-to-right, top-to-bottom.

When it lands near the edge or in the corner, it only collects from the available cells.
