Game IDs: 2562 / 2563 / 2721

GAME DESCRIPTION

A frosty feud is heating up on the holiday ice.

Arctic Duel is a 5x3 cascading ways game where every spin can spark a playful showdown. Watch as **Walking Wild symbols** step across the reels, boosting the **Global multiplier** when they carry a multiplier value. When two Wild symbols collide, the Global multiplier is increased by a random value, boosting your wins even further during a single cascade.

The real battle begins in the **bonus game** rounds, where the Global multiplier becomes progressive and never resets. Whether a **Carrot Heist** unfolds or the ultimate **Arctic Showdown** takes place, every Wild that exits the grid brings you closer to extra spins.

Join the coolest rivalry of the festive season. With a frosty duel underway and a spectacular max win of **10,000 times** your bet, who will you side with?

The max win can be achieved in all game modes.

FEATURES

WALKING WILD SYMBOL

Can land during the base game and bonus games.

Substitutes for all symbols in the payable.

Wild symbol may have a random multiplier value. When it participates in a win, the multiplier value is unlocked and added to the Global multiplier after the win is calculated. The increased value applies to the next win onwards, not the win that triggered it.

Possible additive values: 1x, 2x, 3x, 4x, 5x, 6x, 7x, 8x, 9x, 10x, 15x, 20x, 25x, 50x, 100x.

Possible multiplicative values: x2, x3, x4, x5, x6, x8, x10.

Note: The order of unlocking multipliers on the Wild symbols is from left to right, top to bottom.

After a Wild symbol participates in a win, it chooses a direction (left or right) and steps one reel in the chosen direction, staying in the same row. The Wild symbol steps one reel to the chosen direction each time it participates in a win during the cascades.

If there are wins on the grid but the Wild symbol is not part of them, it stays in place.

When the Wild symbol reaches the edge of the grid then the next step will be off the grid and it is removed.

The Wild symbol steps after win calculation and before new symbols cascade.

Multiple Wild symbols can be on the grid at the same time and all move simultaneously.

All Wild symbols on the grid are removed with the new spin. When two Walking Wild symbols step onto the same cell, they will become a single Wild for win calculations.

They also add a random multiplier value to the Global multiplier immediately and the new value is already applied to the subsequent win calculation. Possible values are the ones mentioned above.

After merged Wild symbols participate in a win, they separate again, both stepping one position in their respective directions for the next cascade.

Note: Walking Wild symbols cannot land on the same spin as FS Scatter symbols.

FEATURES (continued)

GLOBAL MULTIPLIER

Default value is **1x**.

Applied to all the wins.

During the base game it resets with each new spin.

CARROT HEIST

3 FS Scatter symbols to start the bonus game with **8 free spins**.

This bonus game keeps the base game's mechanics and additionally uses new mechanics described below.

Global multiplier is progressive until the end of the bonus game!

Every 2 Wild symbols that step off the grid award **+1 extra spin**. There is a collector next to the reels that tracks the progress.

ARCTIC SHOWDOWN

4 FS Scatter symbols to start the bonus game with **10 free spins**.

This bonus game keeps the base game's mechanics and additionally uses new mechanics described below.

Global multiplier is progressive until the end of the bonus game.

Every 2 Wild symbols that step off the grid award **+1 extra spin**. There is a collector next to the reels that tracks the progress.

The **Global multiplier** starts at **5x** and **one Wild symbol** is guaranteed on the first spin.
