GAME DESCRIPTION

Step inside Diner 51 — an unmarked diner where the menu is out of this world!

Diner 51 is a 5x4, 14-payline game set in an alien-run roadside diner just outside the famous area. Every spin, a grid of hidden Wild Tiles appears behind the symbols, showing the positions that will turn into Wild symbols if the Wild Tile activator lands. The Multiplier booster symbol steps up the Global multiplier, which follows a doubling ladder from 1x up to 1024x and is applied to all wins in that spin.

A Random Encounter can also occur in the base game when 5 or more Wild Tiles are on the grid and no Wild Tile activator symbol has landed, turning all visible Wild Tiles to Wild symbols.

Trigger a **bonus game** with 3 or more FS Scatter symbols, where Wild Tiles are permanent. Every Wild symbol that lands adds a new Wild Tile beneath it, and those cells carry over into every following spin. The Global multiplier is also progressive, increasing each time a Wild symbol lands on a Wild Tile.

With a maximum win potential of **25,000 times your bet**, **Diner 51** offers an extraterrestrial dining experience.

The max win can be achieved in all game modes.

FEATURES

GLOBAL MULTIPLIER

The Global multiplier follows a ladder with the following values:

1x, 2x, 4x, 8x, 16x, 32x, 64x, 128x, 256x, 512x, 1024x.

The default value is 1x.

When the value is above 1x, it is applied to all wins in that spin.

In the base game, the Global multiplier is increased only by the Multiplier booster symbol and resets to 1x with each new spin.

WILD TILE ACTIVATOR

Can land during the base game and bonus games.

When it lands, it turns all symbols on Wild Tiles into Wild symbols.

The symbol itself transforms into a random paying symbol (can be a Wild symbol) after activating the Wild Tiles.

When the symbol itself is on a Wild Tile, it also transforms into a Wild symbol.

When both Multiplier booster symbol and Wild Tile activator symbol are on the grid in the same spin, Multiplier booster symbol acts first.

WILD TILES

In the base game, between 0 and 20 Wild Tiles are randomly placed on the grid each spin. They do not have any effect on their own, they only become Wild symbols when activated.

Wild Tiles are activated when the Wild Tile activator symbol lands, turning all symbols on Wild Tiles into Wild symbols at once.

A Wild Tile that already contains a Wild symbol when activated remains unchanged.

In the bonus games Wild Tiles cannot appear during a spin randomly. Every Wild symbol that lands adds a new Wild Tile in that position, and all Wild Tiles are permanent until the end of the feature.

FEATURES (continued)

MULTIPLIER BOOSTER

Can land during the base game only.

When it lands, it increases the Global multiplier by a random number of steps.

Possible number of steps: **1, 2, 3, 4, 5, 6, 7, 8, 9, 10.**

After increasing the multiplier, the symbol transforms into a random paying symbol (can be a Wild symbol).

When several Multiplier booster symbols are on the grid at the same time, each one acts separately and transforms into a different random paying symbol.

When both Multiplier booster symbol and Wild Tile activator symbol are on the grid in the same spin, Multiplier booster symbol acts first.

RANDOM ENCOUNTER

Can occur in the base game only.

It can trigger on a random spin when 5 or more Wild Tiles are on the grid and no Wild Tile activator symbol has landed.

When it triggers, all Wild Tiles on the grid are activated and turn into Wild symbols.

Note: Random Encounter cannot trigger when FS Scatter symbols are on the grid.

WILD SYMBOL

Can land during the base game and bonus games.

Can also be added by Wild Tiles when the Wild Tile activator lands, or by a Random Encounter.

Substitutes for all symbols in the paytable.
